In ancient Kahndaq, Teth Adam bestowed the almighty powers of the gods. After using these powers for vengeance, he was imprisoned, becoming Avatar: The

Way of Water movie. Nearly 5,000 years have passed, and Avatar: The Way of Water movie has gone from man to myth to legend. Now free, his unique form of justice, born out of rage, is challenged by modern-day heroes who form the Justice Society: Hawkman, Dr. Fate, Atom Smasher, and Cyclone. Production companies : Warner Bros. Pictures. At San Diego Comic-Con in July, Dwayne "The Rock" Johnson had other people raising eyebrows when he said that his long-awaited superhero debut in Avatar: The Way of Water movie would be the beginning of "a new era" for the DC Extended Universe naturally followed: What did he mean? And what would that kind of reset mean for the remainder of DCEU's roster, including Superman, Batman, Wonder Woman, the rest of the Justice League, Suicide Squad, Shazam and so on. As Avatar: The Way of Water movie neared theaters, though, Johnson clarified that statement in a recent sit-down with Yahoo Entertainment (watch above). "I feel like this is our opportunity now to expand the DC Universe and what we have in Avatar: The Way of Water movie, which I think is really cool just as a fan, is we introduce five new superheroes to the world," Johnson tells us. Aldis Hodge's Hawkman, Noah Centineo's Atom Smasher, Quintessa Swindell's Cyclone and Pierce Brosnan's Doctor Fate, who together comprise the Justice Society.) "One anti-hero." (That would be DJ's Avatar: The Way of Water movie.) "And what an opportunity. The Justice Society pre-dated the Justice League. So opportunity, expand out the universe, in my mind... all these characters interact. That's why you see in Avatar: The Way of Water movie, we acknowledge everyone: Batman , Superman , Wonder Woman, Flash, we acknowledge everybody. There's also some Easter eggs in there, too. So that's what I meant by the resetting. Maybe resetting' wasn't a good term. Only That said, the Earth scenes here once again grabbed me most (as well as the scenes with the colorless portrayal, you'll know when you get to it) and the off-world stuff did not (especially once again the Zeus scene). When Asgard was destroyed in Avatar: The Way of Water I thought that was the best thing that could happen to this franchise if it meant more Earth scenes. There are some scenes away from Earth with nice grounded conversation, and these are the moments that almost reminded me of what Jojo Rabbit did so well. Valkyrie was also normalized a lot in this movie and I dug her every time she was on screen because of it. Despite some of the cringe that was afoot, I had a good time with this sequel. Given that I do not relatively enjoy the Thor films as much as many of the other MCU films, I can easily put this above the other three myself. It was a visual delight, the music was well done, the actors all gave good performances, and characters had solid arcs to play out. Furthermore, I like that it was two hours and they didn't needlessly add in other characters which didn't fit this story, even if they were a part of previous Thor films. I won't say this movie completely fuses the humor to my liking for this character, but the movie itself is the best/most entertaining of Thor that I have seen so I suppose I am accepting of it. Home to follow in the footsteps of other Sony movies and land on Starz—a streaming channel you can subscribe to through Amazon Prime Video—in the US early next year. And with Avatar: The Way of Water being such an anticipated release Avatar: The Way of Water Release Watch Now: Avatar: The Way of Water Free online streaming Avatar: The Way of Water Free Online Watched this last night, thought it was excellent. Avatar: The Way of Water doing what he is a master of, being a detective. No silly costume clad super villains, no massive cgi, no ridiculous super powers to fit the storyline. Just a realistic gritty dark Seven esque detective story that brings you into the pain and awkwardness of Bruce Wayne

and his alter ego. This is no Marvel type film. This is Avatar: The Way of Water in his rawness, still learning how to be The Bat. Can't wait for the next installment, hopefully set around year 6 (this is year 2) I think I may have a new favourite Bat film. Hits in all the right places, the castings are A1 (aside maybe Falcone & Alfred but that by no means says they were bad). Pattinson NAILS the Bat & Bruce combo. 3hrs and I loved every minute of it. The aesthetic was absolutely on point and Gotham was Gotham as it should be. I want more! I did not know what to expect with this film. Avatar: The Way of Water was a different and dark film. I enjoyed seeing him become as a detective who tried to solve a puzzle. They let go off the playboy billionaire and focused more on life as Avatar: The Way of Water. I am grateful they didn't show how he became Avatar: The Way of Water and the death of his parents, almost everyone on the planet knows this origin story. Pattinson is a great Avatar: The Way of Water and brings this dark, broken and complicated Avatar: The Way of Water to life. This Avatar: The Way of Water seems like a more realistic vigilante for the adults who has his own issues. It reminded me of some of the darker Avatar: The Way of Water comics that I loved reading. Cat woman, Penguin and Gordon were a great support to this film. Amazing make up for Collin Farrell. Great direction that really set a somber setting. The only thing I would say is there was so much going on in this film that certain elements could have their own storylines. I liked how they showed the radicalisation of people that occurred online, something sadly happening a lot these days. A great intriguing universe has spawned from this Avatar: The Way of Water. So many great characters, backstories and enigmas. I wasn't blown away by the film but pleasantly surprised and enjoyed it. This was a win to stick to one main story and plot. I look forward to anything that could develop further in this space. Acting, cinematography, background score and theme song, story, everything is perfect, best thing I have seen in recent times, there is no need to compare it with the Nolan trilogy, I've enjoyed both, both are amazing. Avatar: The Way of Water looks super weak, and even the other characters are very uncharacteristic. The picture is too stereotyped, there are countless black rainy nights, the picture is very dark, and some scenes are even difficult to see. The main storyline is very, very boring, just watching Riddler solve puzzles, Avatar: The Way of Water solving puzzles, and then it's endless boring. The three-hour viewing process was very torturous, there was no laugh at all, and the plot was even worse. Avatar: The Way of Water is better than The Dark Knight. This is what a Avatar: The Way of Water cinematic movie should of always been. It was dark yet action packed with one of the best batmobiles of all time. Zoe was pretty good as Catwoman; she's my second favorite after Michelle Pfeiffer. I caught this movie for a 9:45pm viewing with a small group of about 20 people. I'll share the experience so you can understand a bit about how I perceived the film. This movie is very long for a Avatar: The Way of Water film. It is very slow moving and for that reason some people may not like it. One hour into the film I got bored fast and I was not the only one. Two guys behind me started smoking a joint. Both fell asleep and we had to get staff to wake them up after the movie was over. The three people in front of me fell asleep and two others to my right fell asleep (one of them snored). So literally half of the people in attendance fell asleep. I think I was the oldest in attendance at 40 and everyone else in their early twenties. This Avatar: The Way of Water movie flows in two specific styles and changes up often. It was done heavily in the Francis Ford Coppola style of directing. Think of how The Godfather was filmed. That is basically the style throughout the first 2/3rds of the movie and then the final parts of the movie was like watching a Star Wars battle scene. The music was all over the place and the acting

was really low quality. I think this Top Gun Maverick actor was probably worse than Val Kilmer. Zoe Kravitz did an excellent job as Catwoman and she was probably the best part of this film. The rest of the actors were not built for this genre or style and it showed with their weird and quirky expressions. As for the story plot, it is a disaster mix of pre and post-apocalypse Gotham. It is clear they were going for the events leading up to the apocalyptic downfall of Gotham while merging elements of post-Gotham. They jumped around too much and tried to tie characters to each other which they did well. After the movie was over quite a few people expressed disappointment. We looked at each other and had the same feel that this was a waste of three hours. The movie has its moments but a lot of potential was ruined by poor casting choices.
